

FUNDAMENTALS OF CALCULUS
AND
REASONING
FOR CLASS-XI & XII CBSE SYLLABUS

A CONTEMPORARY APPROACH

TABLE OF CONTENTS

CHAPTER-(1): REASONING:

- (1.1): Introduction: Let us first know our brain functions. Page-6
- (1.2): Why and How Logic?
- (1.3): Logic or Reasoning in Math:
- (1.4): Reasoning Process:
- (1.5): Terminology:
- (1.6): Deductive and Inductive Reasoning:
- (1.7): Deductive Reasoning in Daily Life:
- (1.8): Inductive Reasoning:

CHAPTER-(2): TYPES OF REASONING:

- (2.1). Type of Deductive and Inductive Reasoning:
- (2.2). Applications of Deductive Reasoning:
 - (A): Application of Deductive Reasoning in Geometry:
 - (B): Application of Deductive Reasoning in Algebra:
 - (C): Applications of Deductive Reasoning in Statistics:
 - (D): Applications of Deductive Reasoning in Calculus:
- (2.3). Inductive Reasoning:
- (2.4): How to use Pattern and Generalization Reasoning to Solve Problems:
 - (A): Pattern in Polynomials:
 - (B): Pattern in Statistics:
 - (C): Pattern in Graph :
 - (D): Pattern in Trigonometry:
 - (E): Pattern in Calculus:

CHAPTER-(3): BASIC CONCEPT OF PRE-CALCULUS:

- (3.1): Introduction:
- (3.2): Why we study Calculus?
- (3.3): Uses of Calculus:
- (3.4): Number System: Pre- Calculus:
- (3.5): Proportional Reasoning: Big Idea:
- (3.6): Geometric Interpretation of Direct Variation:
- (3.7): Inverse Proportionality (Inverse Variation):
- (3.8): Ordered Pair:
- (3.9): Inequality:
- (3.10): Set and Set Notation:
- (3.11): Interval Notation:

- (3.12): Functions or Mapping:
- (3.13): Types of Functions:
- (3.14): Domain and Range:
- (3.15): Methods of representing a function
- (3.16): How to make a rule or a formula or an equation or function from given data:
- (3.17): Operations with Functions:
- (3.18): Some Important Functions:
- (3.19): Example of Solved Problems:
- (3.20): NCERT Exercises: Functions.
- (3.21): Summary:
- (3.22): Practice Problems: MCQ-A: Practice Problems-B, C and D
- (3.23): PREPARE YOURSELF FOR EXAM:
CBSE BOARD, AIEEEE and IIT PROBLEMS

CHAPTER-(4): LIMIT:

- (4.1): Introduction:
- (4.2): Physical View of Limit:
- (4.3). Intuitive Idea of Limit and Derivatives:
- (4.4): Formal Definition of Limit:
- (4.5): Right Handed and left handed limits:
- (4.6): Undefined Operations:
- (4.7): Limits Approaching Infinity:
- (4.8): Limit Properties: Algebra of Limits:
- (4.9): Evaluation Techniques of Limits:
- (4.10): More Techniques of Evaluating Limits:
- (4.11): Limits of Trigonometric Functions:
- (4.13): Sandwich Theorem or Squeeze theorem:
- (4.14): Indeterminate Forms and L'Hospital's Rule:
- (4.15): NCERT Exercises:
- (4.16). Summary:
- (4.17): Practice Problems: MCQ-A: Practice Problems-B, and C
- (4.18). PREPARE YOURSELF FOR EXAM:
CBSE BOARD, AIEEEE, and IIT Problems:

CHAPTER-(5): CONTINUITY:

- (5.1): Continuous Functions:
- (5.2): Definition of Continuity at a Point:
- (5.3): What Does Continuity Mean Numerically?
- (5.4): Applications of Continuous Functions:
- (5.5): Algebraic View of Continuity of Function:
- (5.6): Continuity Theorems and Their use in Calculus:
- (5.7): Types of discontinuity:**
- (5.8): Intermediate Value Theorem:
- (5.9): Examples of Solved Problems:
- (5.10): Summary:
- (5.11): Practice Problems: MCQ-A: Practice Problems-B, and C, NCERT Exercises
- (5.12): PREPARE YOURSELF FOR EXAM:
CBSE BOARD, AIEEEE, and IIT Problems

CHAPTER-(6): DIFFERENTIAL CALCULUS:

- (6.1): Introduction.
- (6.2): Geometrical meaning of derivative:
The Limit Method: **Differentiation from first principles:**
- (6.3):** The Physical Concept of the Derivative:
- (6.4): Theorems on Derivatives: Differentiation Rules:
- (6.5): Derivative of Some Important Functions:

- (6.6); Differentiation of Trigonometric Function:
- (6.7): Continuity and Differentiability:
- (6.8): Derivative of Other Important Functions:
- (6.9): Second Order Derivative:
- (6.10): The Mean Value Theorem:
- (6.11): Summary:
- (6.12): Practice Problems: MCQ-A: Practice Problems-B, and C ; NCERT Exercises
- (6.13): PREPARE YOURSELF FOR EXAM:
CBSE BOARD, AIEEE, and IIT Problems

CHAPTER- (7): APPLICATION OF DERIVATIVES:

- (7.1): Rate of Change of Quantities:
- (7.2): Increasing and Decreasing Functions:
- (7.3): Tangents and Normals:
- (7.4): Approximation with Derivatives:
- (7.5): Maxima and Minima: Applications of Maxima and Minima in Daily Life:
- (7.6): Absolute maximum and absolute minimum values of a function on a closed interval:
- (7.7): Summary:
- (7.8): Practice Problems: MCQ-A: Practice Problems-B, and C; NCERT Exercises
- (7.9): PREPARE YOURSELF FOR EXAM:
CBSE BOARD, AIEEE, and IIT Problems

CHAPTER-(8): INTEGRATION:

- (8.1): Definition:
- (8.2): Why Integral Calculus?
- (8.3): Definition: Physical Interpretation of Integration:
- (8.4): Integration As The Reverse Process of Differentiation:
- (8.5): How to Integrate:
- (7.6): Geometrical interpretation of indefinite integral:
- (8.7): Some properties of indefinite integral:
- (8.8): Comparison between Differentiation and Integration:
- (8.9): Methods of Integration: (i): Integration by Substitution and Change of Variables:
- (i-a): **Indirect Substitutions**
- (i-b). Integration of Exponential Functions:
- (i-c). Integration of Rational Functions Resulting in Logarithmic Functions etc.
- (i-d): Method of Integration by Power Substitution:
- (ii): Integrals Involving Trig Functions:
Integration using trigonometric identities:
Indirect Substitution:
Integrals Involving Trig Functions: General Form/Pattern: Integration by Pattern Recognition:
- (iii): Standard Substitutions: Integrals of Some Particular Algebraic Functions:
Trig Substitutions: Integration by Recognizing following Pattern:
Integrals Involving Quadratics and its roots: Integration by Pattern Recognition:
- (iv): Integration by partial fractions: Integration by Pattern Recognition:
Type of Partial Fraction Decomposition Problems:
- (v): Integration by parts:
- (vi): Integrals of some more types /patterns:
- (8.10): SUMMARY:
- (8.11): Practice Problems: MCQ-A: Practice Problems-B, and C, NCERT Exercises
- (8.12): PREPARE YOURSELF FOR EXAM:
CBSE BOARD, AIEEE, IIT PROBLEMS:

CHAPTER-(9): DEFINITE INTEGRATION:

- (9.1): On Finding Areas by Integration:
- (9.2): Physical Interpretation of Definite Integral:
- (9.3): Fundamental theorem of calculus:

- (9.4): (A).Evaluation of Definite Integral by Substitution:
- (B).Evaluation of Definite Integral by Parts:
- (C).Evaluation of Definite Integral by Partial Fraction:
- (D): Even and Odd Functions:
- (9.5): Properties of definite integrals:
- (9.6): Summary:
- (9.7): Practice Problems: MCQ-A: Practice Problems-B, C, D and E; NCERT Exercises
- (9.8): PREPARE YOURSELF FOR EXAM:
CBSE BOARD, AIEEE and IIT PROBLEMS:

CHAPTER-(10): APPLICATION OF INTEGRALS:

- (10.1): Area under simple curves:
- (10.2): Area of the region bounded by a curve and a line:
- (10.3): Area of the region bounded by the two curves:
- (10.4): SUMMARY:
- (10.5): Practice Problems: MCQ-A: Practice Problems-B, and C, NCERT Exercises
- (10.6): PREPARE YOURSELF FOR EXAM:
AIEEE and IIT Problems

CHAPTER-(11): DIFFERENTIAL EQUATION:

- (11.1). Why study differential equations?
- (11.2). Differential Equation:
- (11.3). Order and degree of a differential equation:
- (11.4): General and particular solutions of a differential equation:
- (11.5): Formation of a differential equation whose general solution is given:
- (11.6): Methods of solving first order, first degree differential equations:
- (i): Method of Solving Differential equations with variables separable:**
- (ii): Homogeneous differential equations:
- (iii). Linear differential equations:
- (11.7). Summary:
- (11.8): Practice Problems: MCQ-A: Practice Problems-B, and C; NCERT Exercises
- (11.9). PREPARE YOURSELF FOR EXAM:
AIEEE and IIT Problems.
